

New Partner Form

Join the Chesapeake Conservation Partnership and Become a Partner in Advancing Landscape Conservation

The Chesapeake Conservation Partnership was established in 2009 and is a voluntary network of networks whose membership comes from Chesapeake watershed states and the District of Columbia and represents federal and state resource and land management agencies, numerous national, regional and local land trusts and other non profits. Our mission is to foster collaborative action among our members and with private landowners to conserve culturally and ecologically important landscapes to benefit people, public health, economies, and nature throughout the six-state watershed.
